

Full Arch Rehabilitation: A Modern Approach for Simplicity, Precision & Predictability Utilizing a Digital Workflow

Presented by Oz Richi

Hosted by Dan Wyland & Pamela Ettus-Johnson -
BioHorizons Territory Managers

Thursday, June 13, 2024 • 2 CE Credit Hours

COURSE DESCRIPTION

Full arch immediate loading is the fastest part of dentistry today. It's a controlled service that provides immediate delivery of fixed prosthetics. BioHorizons Vulcan Magnetix delivers a customized guided technology that allows immediate benefits for patients happiness. We will be discussing the details that go into the surgical and prosthetic delivery.

LEARNING OBJECTIVES

- Identify the four records that are required to treatment plan a digitally-guided, immediate full arch case.
- Recognize the parts and pieces used to pickup the immediate long term provisional and restore the definitive prosthesis.
- Summarize the steps for immediate temporization of the long term provisional.
- Summarize the steps for restoration of the definitive prosthesis.

Ozzie Richi, MDT

Ozzie Richi, MDT has worked in all facets of dental technology for the past 32 years and specializes in implants. He has helped with the development of several implant companies' systems and products available on the market today. Mr. Richi was the guided Implant Specialist for the leader in guided surgery company in the US and has lectured across the country on immediate loading, and the latest advances in implant technology. He is currently the Digital Workflow Manager for Vulcan/ BioHorizons in the Gulf South Region and manages 9 states.
